Identify This Coin: What's wrong with the mintmark?

Answer at the meeting and in the next Die Break.

Last month's "Identify This Coin"

This is a 1941 proof Walking Liberty half. What is different is that it is missing the designer's initials. Over-zealous die polishing erased the A\A\W initials.

The initials should be under the Eagle's wing as in this 1944-S Walker.
